12:50] <JimmyThompson> to.
12:51] <JimmyThompson> jmak Do you have the /src/app/vendor/ folder?
12:51] <jkli> hey, I was wondering if this is the right place to ask, but I really like popcornertime and were thinking if it is possible to remove the torrent
client and let it download videos directly from my home server?
12:51] <JimmyThompson> A few people have been asking.
12:51] <JimmyThompson> You can either fork the repo and make a pull request.
12:51] <JimmyThompson> Or make an issue.
12:52] <@jmak> yeah a vendor folder
12:52] <jkli> the thing is, i want to disable the torrent client because in ger it is illegal to use it
12:52] <JimmyThompson> jmak What's in it?
12:54] <@jmak> dragwindow.js videojshooks.js
12:54] <@jmak> and videojsplugins.js

12:54] <JimmyThompson> Half your packages are missing. :\
